| | | 20 | 40 | 10 | 10 | 10 | 10 |
| | | | | | | | |

VI- Reading Comprehension and Summary Making (140 Marks)

Read the following passage carefully, then answer the questions that follow:

140

Fruit flies are small insects that are attracted to fruits and vegetables. The flies not only eat the fruit, but they also lay their eggs there. A single fruit fly can lay up to 500 eggs on the surface of a piece of fruit. Within eight days, the fruit flies that **hatch** from these eggs are full adults that can then lay their own eggs.

Fruit flies are really annoying so most people want to get rid of them as quickly as possible. Some people use pesticide sprays on the fruit flies. Although this will kill the flies, it will also spread harmful poison all over your kitchen. Luckily, there is also a completely safe way for you to get rid of fruit flies in your house.

The first step is for you to remove all fruits or vegetables from your counter. Store these items in the refrigerator. Clean up any spilled juice or bits of food that might be on the floor. Take out the trash and empty the recycling bin. Wash any dirty dishes. Doing all of these things will stop new fruit flies from finding food or places to lay their eggs.

Next, make a trap to catch all of the remaining fruit flies in your house. First, fill a small bowl with a few tablespoons of vinegar. Then, put a piece of fruit into the vinegar. Cover the bowl very tightly with a sheet of plastic wrap and make a few very small holes in the wrap with a fork. If all goes according to plan, the flies will enter the trap through the holes but will be unable to fly back out. This trap will catch all of the remaining fruit flies. You can either kill these flies or send **them** outdoors.

Fruit flies can be a pest, but they do not have to make you crazy. With a little effort, you can get existing flies out of your house and prevent new ones from taking over your kitchen.

A) From a, b, and c, choose the correct answer: (6X10=60 Marks)

25. What is the best title of this passage?

- a. Fruit Fly Fighting
- b. Harmful Poison
- c. Fruits and Vegetables

26. What is the meaning of the underlined word "hatch" in paragraph (1)?

- a. Go away
- b. Come out
- c. Get on

27. What does the underlined word "them" in paragraph (4) refer to?

- a. Flies
- b. Holes
- c. Tablespoons

28. According to paragraph (1), where do fruit flies lay their eggs?

- a. In the refrigerator
- b. In the corners of the kitchen
- c. On the surface of a piece of fruit

29. All the following statements are **FALSE EXCEPT**:

- a. Fruit flies can grow into adults after only 8 days.
- b. Fruit flies die immediately after they lay their eggs.
- c. It takes much effort to get existing flies out of your house.

30. What is the author's purpose in writing this passage?

- a. To tell readers how to tidy their houses.
- b. To help readers get rid of fruit flies safely.
- c. To inform readers that fruit flies are not annoying.

B) Answer the following questions: (2X10=20 Marks)

31. Why are such small insects called "fruit flies"?

.....

32. What is the aim of making a trap for fruit flies?

.....

C) Summary Making (60 Marks)

In a paragraph of not more than **FOUR** sentences and **Four** ideas, **summarise** and **paraphrase** paragraph '3' in answer to the following question:

"How can we stop new fruit flies from finding food or places to lay their eggs?"

.....
.....
.....
.....
.....
.....
.....

| Rubrics | Content / relevance of ideas | Paraphrasing | Spelling and grammar | Paragraph format | Total |
|---------|------------------------------------|--------------|-------------------------|---------------------|-------|
| | 30 | 20 | 5 | 5 | 60 |
| | | | | | |

VII- Translation (20 Marks)

Translate the following into good English: (2 x10=20 Marks)

سامح: نود المساعدة في حماية الطيور والفرشات.
