**B) Reading Comprehension ( 16 Marks )**

**Read the following passage carefully then answer the questions below:**

Octopuses are extremely intelligent animals. They have even learnt some tricks to get them out of difficult situations, as for example, when they are afraid of an enemy. As octopuses don't have teeth or sharp nails to defend themselves, they hide themselves in the sand on the bottom of the ocean floor. The octopus is like a lizard because it can change the colour of its skin to match the sand. This colour change happens in less than a minute.

Some octopuses like to stay near the beach where there are rocks , corals and less enemies. Because octopuses don't have bones, **they** can squeeze themselves into small spaces between the rocks to get out of reach of enemies. Another way an octopus can hide is by shooting ink. An octopus uses a part of its body to shoot ink into the water. The ink forms a cloud that hides the octopus.

If an octopus is being attacked, it can actually make itself look like a sea snake. It will bury itself in the sand, keeping two arms seen. It will change the colour of those arms to match a sea snake. But if there's no time to hide!, or If an octopus is in trouble, it can **break off** one of its arms. The arm will then change colours and move around the water while the octopus swims away to safety. The octopus's arm will grow back.
