**-Read the following passage carefully, then answer the questions below:**

A zoo is a place where we can see different animals. In the UK there are forty- eight zoos, plus six safari parks. Some people do not like the zoo because they think that it is wrong to keep wild animals in cages. Other people agree, but they think that if the cage is large, the animals will feel happy. Animals have good food every day and if they are ill, they are given the suitable medicine. People don't have to worry about animals. There are all kinds of animals in a zoo: wild animals, small and even **rare** animals which are hard to find in the nature.

In the forest, small animals don't live long because they are killed by larger animals. In a zoo, these animals are safe. The very large animals, like lions and tigers are unhappy because they miss the wide, open places where they used to live and hunt. Most people enjoy visiting the zoo. They usually prefer to look at the large animals although they are not always the most interesting. Sometimes visitors to the zoo are very unkind to animals. **They** throw stones and other things at them and try to feed them the wrong food which is not allowed.
