a) devotedly b) obviously c) **regardless** d) essentially

b. Fill in the spaces with the most suitable words from the list: (4x1½= 6 Ms)

(document – peninsula – literature – suffocate – gratitude)

5. The Kingdom of Saudi Arabia is the biggest country in the Arabian **Peninsula**.
6. We must always show our thanks and **gratitude** to our parents for their constant care.
7. There are some exciting films that **document** life in Kuwait before the discovery of oil.
8. Everyone inside the burning building was about to **suffocate** because of the thick smoke.

B) Reading Comprehension (16 Marks)

Read the following passage carefully then answer the questions below:

The United Arab Emirates is a country with a lot of oil. Oil brings the country billions of dollars each year. So why is the UAE building a city that uses very little or no oil? The answer is simple: oil will not last forever. But there is another resource people can use instead of oil; it is the sun.

In fact, engineers are now building a new city that uses mostly solar energy to get electricity. The city is called Masdar, and it is about 32 km from Abu Dhabi. If it is a success, Masdar will be the first city in the world that uses little or no oil.

Masdar is a small city—only 6 square kilometers. In the future, it will hold 50,000 people, more than 1,000 companies, and a university. Its streets are very narrow. The houses are close to each other. The shade from the houses helps keep the streets cool.

There are no cars on the streets of Masdar. Because the city is so small, people can walk to most places. If they get tired, they can use small solar-powered vehicles which move underground, like a subway. These vehicles have no drivers. People just tell the vehicle where **they** want to go, and it takes them there.

Masdar will reuse as many resources as possible. It will reuse about 80 percent of its water and change most of its **waste** into more energy. People in Masdar are even using building materials that they can reuse in the future.

Can this city really be successful? No one knows. But if it is, there could be other low energy cities around the world in the future.

a. Choose the correct answer from a, b, c and d: (6 x 2= 12 Ms)

9. The best title for the passage is:

- a) Sources of Energy
- b) **A City Without Oil**
- c) Modern Houses in the UAE
- d) Famous Cities Around the World

16

10. The underlined word “waste” in the 5th paragraph means:

- a) air
- b) money
- c) power
- d) **rubbish**

11. The underlined word “**they**” in the 4th paragraph refers to:
- places
 - vehicles
 - people**
 - drivers
12. Masdar is a city in the United Arab Emirates that:
- will not have any buildings or houses.
 - will use up all the country’s oil resources.
 - will change most of its waste into energy.**
 - will not hold any companies or universities.
13. In Masdar, people can walk to most places because:
- the streets are narrow and cool.
 - the city is about 32 km from Abu Dhabi.
 - the vehicles are small, and there are no drivers.
 - the city is so small, and there aren’t any cars.**
14. The purpose of the writer in the passage is to:
- discuss the dangers of using oil.
 - describe people’s life in Abu Dhabi.
 - give information about Masdar City.**
 - compare between cities in the past and now.

b. Answer the following questions: (2 x 2= 4 Ms)

15. Why is the UAE building a city that uses very little or no oil?

Because oil will not last forever.

16. How does Masdar City get most of its electricity?

From the sun/From solar power (energy)

"Any reasonable answer related to the passage is accepted"

II. Writing (30 Marks)

A. Grammar (14 Marks)

14

a. Choose the correct answer from a, b, c and d: (4x2 = 8 Ms)
