Pizza has been around for longer than you might think. Ancient Egyptians, Greeks and Romans used to eat flat bread topped with olive oil. Early Italians baked bread under hot stones. Then they topped the bread with spices and other ingredients.

Pizza is a very popular food. Every year, about three billion pizzas are sold in the United States. And kids like pizza more than any other type of food. For lunch or dinner, kids would rather eat a slice of pizza than anything else.

People love pizza so much! One reason is that pizza is easy to eat. You don't even need a knife or fork. Another reason is that there are many kinds of pizza. So, no matter what your taste is, you can find a pizza you like. You can also have a very tasty pizza without spending a lot of money. And pizza lets you eat several different kinds of food at the same time. The sauce, the crust, the cheese, and the toppings all taste a little different. But they also taste very good together.

There are many different ways to eat pizza. There are many different things you can put on your pizza. But no matter what's on a pizza, it's still a pizza.
