#### Read the following passage carefully, then answer the questions followed:

Firefighting is an important job to keep people safe. Every day, firefighters have to take tests to make sure their bodies are strong enough to do all of the hard work. Some school teachers ask firefighters to visit them at school. They ask the firefighters to teach the kids about how to stay safe. One of the most important parts of being a firefighter is working in a team. They have to work all together to stop fires.

Firefighters never know when a fire is going to happen, so they have to be ready at all times. This means that even if they just sat down to eat dinner when the fire alarm goes on, they have to leave quickly. Even in the middle of the night, firefighters have to be able to wake up quickly in case of emergency. Firefighting is not easy, but if you like helping people, it might be the right job for you.
