**B) READING COMPREHENSION (16 Marks)**

**Read the following passage carefully, then answer the questions below:-**

16

Spacemen are people who travel into space to learn more about the secrets of our world. They go on special missions to places like the International Space Station, where **they** live and work for days, weeks or even months. Spacemen do many important jobs in space, like doing science experiments, fixing machines, and testing new tools. These tools might be used for trips to the Moon or even Mars one day!

Before they can go to space, spacemen have to train for a long time. They learn how to stay safe, how to stay healthy, and how to work with other people as a team. They also practise staying on top of the water to understand what it feels like to be in space. Living in space is very different from living on Earth. Spacemen have to eat special food and talk to their families and their team on Earth using computers and radios.

Spacemen are brave and smart. They help scientists learn more about space and how to keep people safe during space travel. Because of their work, we know more about Earth, stars, and other planets. Many children **look up to** spacemen and dream of becoming like them someday. Spacemen show us that with hard work and curiosity, we can reach for the stars!

**a) Choose the correct answer from a ,b, c or d :-(6 x 2= 12 Marks)**

9. Which of the following is the **best title** for the text?

- a) Our World
- b) Space Machines
